Summary of features and changes

BUG FIXES		
ID	**Description**	**Area**
MEPCM-452	Resolved an issue within the Material Substitutions routine that could cause quantities to double	Takeoff
MEPCM-878	Resolved an issue that arose in the SQL conversion that stopped the quantity of items measured in QuickScale being transferred to ContractMaster	Takeoff
MEPCM-893	Specials in a Buying List estimate may now have their descriptions updated without a duplicate being created	Procurement
MEPCM-896	Rectified an issue that prevented VO values from correctly synchronising within the job in Costing	Variations
MEPCM-897	Resolved an issue that arose in the SQL conversion that stopped users from selecting a Discount Band	Central Maintenance / Product Library
MEPCM-898	Resolved the issue which had prevented the printing of the 'Buying List Performance' Report	Procurement
MEPCM-903	Location descriptions not display correctly within a variation	Variations
MEPCM-906	Adding items to a Quote from an MCO no longer results in an error message being displayed	Procurement
MEPCM-907	Resolved an issue that arose in the SQL conversion that stopped the 'Use Actual Labour Rates' option from working	Variations
MEPCM-908	Fixed an issue that prevented Grades from being defined against database items	Central Maintenance / Product Library
MEPCM-911	Resolved an issue that prevented the ToolsMaster user permissions from working	ToolsMaster
MEPCM-912	Cost Head Descriptions against tools now correctly update when the Cost Head is changed	ToolsMaster
MEPCM-924	Cost Heads may now be added to items in the takeoff sheet if currently blank	Takeoff
MEPCM-936	Fixed a refresh issue within the Enquiry / Project lists that could prevent a job from appearing when filed within a folder	General
MEPCM-941	Items included on a quote now show the correct value within the Optimum Suppliers routine	Procurement
MEPCM-942	Deleting an item from a PO now shows the prompt to post back to the buying list	Procurement

MEPCM-943	Resolved a display issue that meant Cost Head Descriptions were not being displayed within the Product Edit screen	Central Maintenance / Product Library
MEPCM-944	Fixed an issue that prevented sections and locations from being correctly renumbered	Takeoff
MEPCM-947	Resolved an issue that could result in incorrect supplier net prices being shown when viewing discounts within a product	Central Maintenance / Product Library
MEPCM-948	Copy and paste of items with byproducts in VO's has been modified to ensure robustness	Variations
MEPCM-949	Under certain circumstances the labour hours weren't refreshing until the estimate was closed when the takeoff was modified	Tender
MEPCM-952	Updated the default logos on the standard report templates that are shipped with the software	General
MEPCM-958	Resolved an issue that caused incorrect Price Set data to be saved against manually added items	Central Maintenance / Product Library
MEPCM-966	Resolved an issue that prevented adjustments from being defined in Header / Values	Enquiries
MEPCM-1025	Resolved an issue that prevented Requisitions from being Revised	Procurement
MEPCM-1040	Resolved an issue that prevented BoQ Headers with values from printing	Takeoff / Reports
