Estimating XG

SOFTWARE

This document contains summary information on new features, late-breaking product information, updates, and troubleshooting tips not covered in the Trimble® Estimating XG documentation.

Introduction

These release notes describe the features and enhancements that are new in version 2.2.1.28 of the Estimating XG, for the following components only:

● XG Framework
● XG Common
● XG Estimating
● XG Reporting (related to XG Estimating)

For further support information, go to http://mep.trimble.co.uk/support.

New features and changes

The improvements that have been made to the Estimating XG software are summarised in the following table.

Upgrade procedure

Updates will be made available and automatically downloaded via Trimble LiveUpdate.

Version: 2.2.1.28
Date: 2017
Month: January

BUG FIXES	
Jira ID	**Description**
MEPEU-2580	Resolved an issue that prevented the 'Update Rest' option from working for Direct Entries
MEPEU-2540	Cost Type fields are now correctly updated when using the Estimate Batch Update routine
MEPEU-2535	The 'Administration / Products / Import Product Details' routine will now correctly update previously imported items if the import file is updated and re-imported
MEPEU-2526	The 'Line Sell' field for Totals Reports in an estimate now displays with 2 decimal places instead of 4. (For any reports that have previously been created the field may need to be removed and re-added for this change to take effect)
